Introduction

Since 2023, Branding Ninjas has been pivotal in elevating Power and Cooling's online presence through strategic website optimization, social media marketing, and SEO efforts. Our focused approach aims to enhance their visibility and engagement within the highly specialized industry of data center power and cooling supply.

Client Background

Power and Cooling, led by Amer, is a leading provider in the data center power and cooling supply industry. The company specializes in delivering state-of-the-art solutions that ensure efficient and reliable operations for data centers. With a commitment to innovation and customer satisfaction, Power and Cooling is dedicated to helping data centers optimize their energy usage and cooling systems to improve overall performance and sustainability.

What Our Clients Says

We take pride in providing unmatched service and solutions to meet the unique needs of each valued client.

"M's power and cooling is providing outstanding technical support, timely responses and their engineers are exceptionally knowledgeable. They were able to provide the right solutions for my requirements."

Binu Bhanu
Engineer - Electrical
Asset & Property Management

"We would like to express our sincere thanks & appreciation for the entire Power & Cooling team for the outstanding efforts you all have demonstrated during the replacement project of 400KVA UPS & 3nos for IT Data Center at ENBD Al Barsha building. We really appreciate the level of accountability that your team has demonstrated all throughout the activity and for delivering the extra mile that the project required, which is quite commendable."

Eng. Mushtak T. Al-Hamady. (AIML,PMP®,LEED®,CMR,EFQM)
Associate Vice President | Facility Management & QHSE | Procurement &

"Overall, I am extremely satisfied with the services that Power and Cooling Middle East provides, I highly recommend Power and Cooling Middle East for data centre maintenance services. They are always reliable, professional, and excellent. They handle any task with skill and care. Their support engineer "Siju Ram" is especially dedicated and helpful. I appreciate their quality work and partnership."
